Our last Appeal.

We make our last appeal this morning to the Wings of Newport to coun manfully and strongly to the polis and discharge an important duty. As we said before, the most powerful and extraordinary efforts will be made by the fucofocos to carry the State; and we are not called mon to resist these efforts. under any ordinary circumstances; we have no common fee to contend against. The men who are now opposed to us are the men who were foremost in the mischievous offerts of the Dorr party to trample upon the laws and institutions of the State. The Dorr party raised the motto of the "Banks and Beauty." And when arrests were made of Welcome B. Sayles and others for Trenson the Providence Express, the organ of the party published the names of those who made the complaints, those who issued the warrants and those who serred them, in large letters, with fists pointing at them and the number of have succeeded, the residences of these gentlemen were to have been first demediated. We are now contending with the same opponents; mea who avow and profess the whole Dorrite principles. Men who, it they are elected to power, will appropriate thousands of dullars as a remuneration to those men who were indicted for Treason against the State; and they will levy a UIRECT TAX UPON THE PEO. PLE TO PAY THE DORRITE TRAITORS. Men of Rhode Island, are you prepared for this! Are you willing to see your Constitution shattered to pieces, your wholesome laws repealed, and yourselves to be taxed for many hundred thousand dollars to pay thuse men who were foremost in the Door rebellion! These are important questions, and you will decide them by your votes to-day. It you are in theor of these revolutionary and destructive movements, you will support the locoface ticket; but if you are opposed to all this, and are in favor of preserving the Constitution unshattered, of sustaining the laws and good government, and preventing a re-enaction of the afarming scenes of 1842, you will vote the emire Whig ticket. If you value the ancient character of Rhade Island, if you value the good old customs of Rhode Island in preference to these of New York, If there is anything should in your firesides, your hearths and your homes, -if the ties of dor lestic affection are strong in your hearts, will you are a iswali ing and inclosing people, you will mobily sustain your him subjection distinguished character by voiling the entire While ficket, and then patting a erritog quirtus up in the destructive poly key of the location party.

Therefore, Whigh one and all come op to the p. Pearstern, for the least Interest the party. Yote early.

We arge upon the Whigs the importance of voting as early in the day as they possibly can; much is gained by this. It chows that they feel a deep interest in the elections, and vote prempt. in Rochester and elsewhere: ly as a matter of principle to sustain Liw and order and good government. and to prevent a re-creation of the section of ista when each men as Walter S. Burgess, Welcome B. Sayles, and othare who are now the locotoco candidiffer for folice, attempted to overthrow the government of the State, and transple upon all law and all ambority.

Vote all the Tickets:

Whigs, remember that you have three fackets to support to-day; for State officers, Cangressmen and Assem-

Do not be deceived,

Do not be deceived by misrepresentations to-day. The Whigs have their regular candidates,-vote for them, particularly the Assemblymen. Every true Whig should vote for the regular Саценя поинівацияв.

Yote the whole Ticket.

We must that every Wing will vote the whate ticket to-day; do not scratch the ratio of a single candidate, because one vote may turn the election. It is possible that one vote might give the State to the locofocos.

Write your name, in full. Whigs, write your names in full on the backs of all your tickets, or they will

he good for nothing.

..... Every Whig vote.

Let every Whig in towa vote to-day for the State ticket, Congressmen and Assemblymen. If any are sick and can not walk to the Court House, let them be taken there in carriages. Come up, one and all, and thus sastain the Whig administration, and prevent a recurrence of the Dorrite troubles of 1943. It is the same old Dorrite party of 1842 that we are now contending against.

To our frish Friends.

We trust that all our Irish friends will vote the Whig tickets to-day. It was only through the Whig influence that the right to vote at all was secured to the hard-working, homest sons of the Immerated fale. In 1843, when our Constitution was adopted, which gives foreigners the right to vote, the localoros did all in their power to prevent the adoption of the Constitution,-and they voted to reject it, and thus, among other things, to deprive foreigners from votion-tructue, typigs sustained it, and thus seduced to foreigners the right to vote. If the Lucofocos could succeed in getting the power this year, they would deprive every honest, hardworking Irishman of his voic. Come up to the polls, therefore, Irishmen, and vote the Whig ticker, and thus retain your privilege to vote. We always defend the rights of Irishmen, because we know that they are honest and deserving, and are always imposed upon by the locof cos, who would deprive them of their rights and trample upon their religion, if they

Mongrel Ticket.

We learn that a mongrel ticket for Assemblymen will be run to-day. It is competed of locofocos and those who claim to be Whigs. We trust that our friends will see to this, and vote for the candidates who have been regularly nominated by the Caucus. We repeat again that there is no safety to any party unless the members of it support their regular nominations. This is no time for a division in our ranks; we have too much at stake in the State to permit any little personal differences to divide uz.

Beware of Spinious Tickets. All manner of spurious tickets will be circulated by the locolocos to-day; be sure that you vote the genuine tickets. which have been nominated by the regular Conventions and Caucures of the Whigh arty.

ALL EXPLAINED AT LAST. - Mr. A. J. Davis, in his work entitled "The Piotorophy of Spiritual Intercourse"--thus lays open the mystery which has heretofore caveloped some of the "spirits"

I now proceed to explain how spirits can move a table or other inorganic substaucea: A spirit, without postersing any of the grossness of the earthly form, is yet organized in its principles and functions procisely as we are in this life; and when it-a spirit-desires to move a table (by way of manifesting its nearness) it concentrates its, own magnetic and powerful elements so as to take hold, as it were, of the magnetism of the atmosphere. In like manner this atmospherical magnetism takes hold of the electricity of the air, and the latter is then concentrated upon the match which it is the spirit's design to move. Aunospherical magnetism and electricity are, therefore, the nerves and mus cles which spirits employ when aroufesting their presence to the material senses of believing as well as sheptical individuals. Hence, when, "rappings" are heard, and when it is certain that no machievious or designing person is producing them by way of imitation, then it is perfectly reasonable to conclude, as has been fiftherto explained, that a friendly spirit from the spirit-land is producing electrical, rolling concust sions, upon some material substruce, through the intermediate agencies of terrestial magnetism and electricity.--The modus operandi of these planoinena I design not now to detail; because, at present, it is deemed sufficient for mankind to know that it is both naturally and philosopically possible for spints to approach and influence heavy and gross bodies of matter.

After such a lucidiexposition, no one can possibly be at loss to account for these manifestations-provided they understand it.

SCENE IN A COUNTRY COURT.-A friend of ours yesterday was called to give evidence in a Court held by a Jusrecord in grandaming country. Accustomed to the staid propriety of the higher Courts, our readers can judge of his astonishment at hearing one of the lawyers talk to the Justice after this fashion: "May it please your Honor, 1 did not intend to be excited in the trial of this cause, but you are 'so infernal stupid that all efforts to control my tem per are unavailing."

PERTTY Good .- The Cincinnati Times opens richly in the joke-telling line .--The following anecdote of a skin-flint is not badly done:

A certain tight-fisted old codger of this city happened in at Foster's Philosophical Instrument Manufactory, a few weeks since, where he was shown the Lord's Prayer engraved in a space about the size of a five cent piece, with which he was well pleased. Returning home,

JF Some years ago, a medical student, who had paid more attention to billiards than anatomy, was brought before a professor for examination, when the following questions and replies were passed :

"The Tenth Legion," published at Woodstock Va., January 10, 1850, said...

"A GREAT MEDICINE."

"Wo have uniformly efrained from recommending to the public any of the variests Patent Medicines of the day, and as thoroughly convinced of their value. Among those we consider worthy of their value. Among those we consider worthy of active is the Garana Etters, invested by Dr. Hoothad, and prepared by Dr. Jackson, in Philadalphia. One instance in particular, in which the enperior virtues of this medicine has been tested, has fallen under our observation. During the last summer, a son of Mr. Abusham Chabill, of this county, was very seriously offlicted with Liver Complaint, and after taying in vain various tenesies, he carefused a battle of the Bitters, and after assign it, we connect takes all of this distressing ising it, we so much indiesed of his distressing winds, that he produced another bottle, and is re-

Unfortunately for the country, and for honest and conscientions inventors and venders of those medicines, the land is becoming thosel with quack preparations, that are made alone for profit, and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are so much having. If a version get an indifferent and much having. If a version get an indifferent things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the fast time by surchases, he is very apt to condrom the whole of them and by no more, and inventors must only blame those of their number, (who ignorously combine plain medicines together for the purpose of making money,) for the ill success which attends the effort of she de-serving."

"We believe Dr. C. M. Jackson's 'Hoolland's

we not success within attents the cilot of she deserving."

"We believe Dr. C. M. Jackson's 'Hoolland's German Bitters,' to be a most excellent medicine, and one that should be highly popular in these days of Temperance—for they are allogether Vegetable in their composition, without one drop of Alcobelic Spirits in them. This medicine is innocent, but strengthening in its effects, and richly deserving of an unbounded ropalarity, which, when it becomes known, it will, no doubt, fully enjoy."

Judga M. M. Nooh said, in his "Weekly Messenger," Jamary 6, 1850,

"Dr. Hoghands Grown Butters.—Here is a preparation which the beading pressent at Union appear to be manimous in recommending, and the reason is obvious. It is made after a preception farmished by one of the most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hoothand, professor to the University of Jena, private physician to tacking of Prusia, and one of the greatest medical writers Germany has ever produced. He was complatically the energy of Aumbag, and therefore a nodicine of which he was the inventor and endurary may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Behility, Vertigo, Archity other Stomach, Constipation, and all enoughints arising from a disordered condition of the stomach, the fiver and the intestiaes. Nine Philadelphia paper express their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, a only in calling the attention of our tealers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afficient."

MORE EVIDENCE.]
The "Philadelphia Saterday Gazette," the best family newspaper published in the United States. The editor says of DR, HOOFLAND'S GERMAN BUTTERS:

IR. HOOFLAND'S GERMAN BUTTERS:

"It is stillow that we recommend what are termed Patent Medicines to the confiderer and patronage of our reacters; and, thierefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood. But we are not speaking of the nontrinus of the day, that are not speaking of the nontrinus of the day, that are noticed about for a brief pariod and. Ithis brigotten after it has done its guilty rate of mischief, but of a medicine long established, miterrally prized, and which has met the hearty approbation of the freely itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the brion, the last three years, and the strongist testimony in its tavor, is, that there is more of it used in the practice of the regular Physicians of Philadelphis, than all other northmens conduct, a fact that can easily be established, and felly proving that a scientific preparation will nect with their quiet approval when were not been tree startered.
